Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Reopening of Prosecution/withdrawal of Previously Indicated Allowable Subject Matter***

After reconsidering the prior art, the Examiner has determined that a new ground of rejection should be made over the claims as filed on November 29, 2006. Therefore, the FINALITY of the rejection of the last Office Action, dated August 29, 2006, and the indication of allowable subject matter has been WITHDRAWN. In view of the discovery of the Hall and Deal references, PROSECUTION IS HEREBY REOPENED as set forth below.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3-4, 8-14, 18-22, and 24-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hall (US. Pat. No. 4,174,720) in view of Deal (US. Pat. No. 7,115,085).

Hall discloses nearly all that is recited in the claims (See Fig. 10, and col. 1), except it may not teach at least one breakable capsule contained within the first section of filter material. However, Deal discloses that it is known for cigarettes to have capsules positioned in their filter elements, the contents of said capsules being released into the filter elements upon rupture of those capsules in the attempt to alter the nature

or character of the mainstream smoke passing through the filter elements (See col. 2, lines 6-11). Therefore, it would have been obvious to one having ordinary skill in the art at the time of the invention to have incorporated at least one capsule in either of the two fibrous filter sections of Hall in order to receive the same benefits. The specific parameters relating to the capsule and activated carbon/adsorbent, recited in the dependent claims, would have been obvious modifications of the cigarette of Hall modified by Deal.

Allowable Subject Matter

3. Claim 27 is allowed.
4. Claims 15-16 and 23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

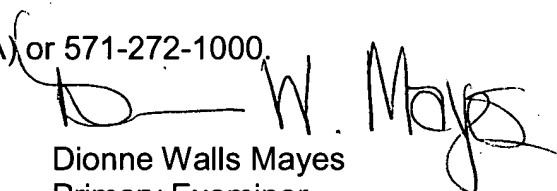

Conclusion
